Introduction:

The student is the soul of our education system. To enable students for facing global challenges, to meet local needs and to strengthen their abilities, skills. Competent mentoring system has been developed by the college. The mentoring system aimed at identifying and honing the potential and uniqueness of each student and takes them to right career path. The present mentor-mentee system enables the faculty not only to understand and keep a track of the specific family, personal, educational as well as financial problems of the students but also to provide helping hand as required. The whole mentoring process works in three different aspects- as pre-mentoring, regular mentoring and post mentoring. Mentor has established a well structured mentoring programme for the students as follows-

Objectives:

1. To provide personal attention to the problems that the students need help with.
2. To help students feel connected to the campus.
3. To monitor students academic and overall performance.
4. To help students improve their study skills.
5. To help students choose and work towards their career goals.

1. For a group mentoring the collective grooming of the students has been carried out by organizing workshops, seminars etc. immediately after admission of the students to First year for all the courses.
2. To know the needs of particular group of students and accordingly inclination of the mentee groups
3. One to one communication of mentors with each mentee.

Post – mentoring:

Mechanism:

- a. Mentor organises a group / individual meetings with the mentee minimum twice a semester. Students can contact to respective mentor any time.
- b. Student progression was recorded accordingly.
